Fellowships 2021-22
The Barbro Klein Fellowship Programme

Located in the Botanic Garden in Uppsala, the Swedish Collegium for Advanced Study (scas) is a national institute for advanced study. The collections of Carolina Rediviva Library and other scientific facilities at Uppsala University are situated nearby.

For the academic year 2021-22 the Collegium offers residential fellowships within the framework of the Barbro Klein Fellowship Programme, a newly launched research programme, which intends to advance the study of cultural diversity in a global perspective. The fellowships afford scholars the opportunity to concentrate on their own research interests. Fellows are expected to be in residence and to participate in academic events beyond their own fields of specialization. The application may be for the entire academic year or alternatively for one academic semester.

The Barbro Klein Fellowship Programme is open to scholars from across disciplines in the humanities and social sciences, with an emphasis on research on cultural and social diversity, cultural heritage and creativity, societal structures and public resistance, and varieties of cultural expressions in local and global perspective.

The programme encourages, but is not limited to, applications from talented younger scholars in non-Western countries and of underrepresented gender. At the time of application, the candidate must have held a PhD (or equivalent degree) for at least three years. The applicant must have a promising track record of independent achievements beyond the post-doctoral level, including significant publications, and be active in international fora.

The holder of a fellowship receives a monthly salary. Accommodation for Fellows who do not live in the Stockholm-Uppsala region is arranged by the Collegium and all Fellows have their own fully equipped office at the Collegium.

The application deadline is 1 October, 2020.
